

CASE STUDY: TRANSFORMING A 1966 PARADISE VALLEY HOME WITH TIMELESS DESIGN

ABOUT THE CLIENT

Donna Horne and her husband, both retired physicians, have called their Paradise Valley, AZ home their own for 35 years. While they cherish the memories they've built there, the house, originally constructed in 1966, had begun to show its age.

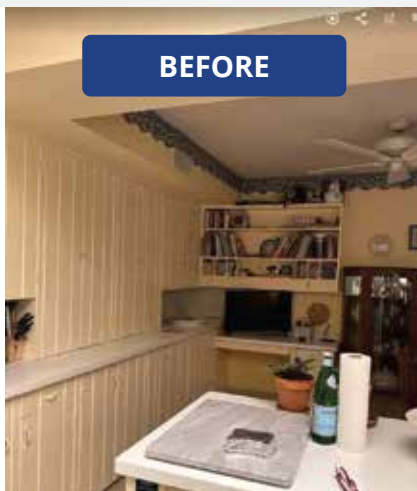

THE VISION: FROM AGING SPACES TO MODERN LUXURY

Originally, Donna wanted to remodel only the kitchen, which had significant wear and tear. However, after consulting with Premier Kitchen and Bath, she decided to expand the project to include the back entry (mudroom), master bathroom with a walk-in shower, and master closet.

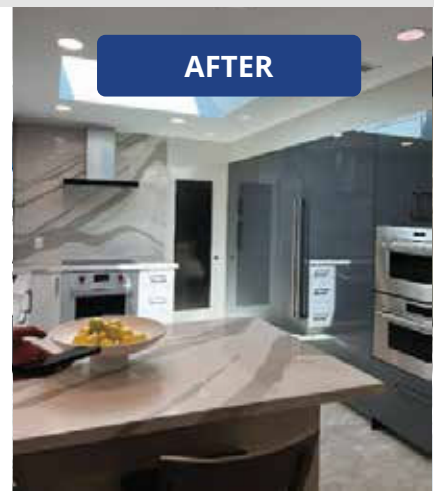

The goal was to not only refresh the aesthetics but also create a more organized and functional space.

- **Mudroom Remodel** – Improved organization and design for a seamless entryway.
